Dear Delegates,

Welcome to the first ever Clinton MUN! We have been working hard all year to bring this committee to life and we cannot wait to meet y'all. We hope that through this committee we can all immerse ourselves in the wonderful world of Harry Potter.

My name is Lauren, and I will be your Crisis Chair. I am a senior here at Clinton and have been a part of Clinton MUN for the past 3 years. This will be my first time chairing a crisis committee so I will be learning just as much from this experience as y'all! I was first introduced to Harry Potter when my mom would read the books aloud to me when I was younger. Creating this committee has been such a wonderful experience since I have been revisiting a world that meant so much to me when I was in elementary school. When I'm not working on MUN or pulling out my hair because of the IB diploma I enjoy reading, watching tv (currently watching Marvelous Mrs. Maisel) and listening to music. I can't wait to work with our brilliant backroom, Noam Ramot, Penelope Sheer and Nicholas Belida and then of course all of our amazing delegates on making this the best experience possible. My favorite thing about crises is how creative you can be when in the conference. I am so excited to see what crazy things everyone thinks of and hopefully we don't let the wizarding world down!

My name is Sofia, and I will be your Co-Crisis Chair. I am also a senior at the Clinton School and have been a part of Clinton MUN since the beginning of my sophomore year. I am an avid Gossip Girl fan and am currently watching Marvelous Mrs. Maisel (as per Lauren's recommendation). When I am not doing MUN, I am busy with the IB and the varsity volleyball team here at Clinton. GO HAWKS! This will be my first time chairing a committee and I am so very excited to do so! Every night of the first grade, my dad would read a chapter of Harry Potter to me and my mother practically raised me in the movies (and Glee). Although I am a hufflepuff, I am beyond excited to see all that you are able to do in this Dark Wizarding World. My favorite characters are Sirius Black, Dobby, and Bellatrix!

Please feel free to reach out to us if you have any questions about the committee or if you would like us to read over anything!

## **Committee Policies**

- 1) Position Papers are required of every delegate to write and submit. As this will show the chairs that each delegate has researched their assigned country and has knowledge on the topic of discussion.
- 2) The use of Chat GPT is approved only as a resource and not as a writing device. If the chairs notice the use of AI or the paper itself has been flagged, the paper will be disqualified and further action may be taken.
- 3) Since this committee is in a crisis the use of electronic devices will be prohibited. Each delegate will be supplied with paper for writing directives and crisis notes so computers are not needed.

## **Crisis Procedure**

**Crisis Notes:** Crisis notes are notes used in order to take personal action from a delegate, without the need for committee approval, or knowing. Crisis notes are therefore bound by a character's individual portfolio power. There are a multitude of ways to write Crisis notes, but ensure to sign your character's name at the end and address it to 'backrooms' or 'crisis' on the front of your folded note.

**Directives:** Like GA and specialized committees, crisis committees have documents that take committee action with regard to the current issue. In crisis committees, this document is called a Directive. Directives will require a minimum of four people signing off on the document. This includes having two sponsors and two signatories.

**Communiqués:** Communiqués are committee documents used often in JCC to communicate with people outside of their own committee. For example, Communiqués could be used when surrender terms or ultimatums are sent to the opponent or when the committee requests aid, advice or arms from their allies. Similar to Directives, they will require a minimum of four people on the document, with two sponsors and two signatories.

**Press Releases:** As the name says, press releases are committee documents addressed to the public. They can be used to inform or even misinform the public according to the desires of the committee. Similar to Directives and Comuniqueés, Press Releases will require a minimum of three people on the document, with one sponsor and two signatories.

## Overview of Committee

Don't let Harry Potter's propaganda get you twisted – the Death Eaters are the most important, inspiring, incredible force of nature in the Wizarding World. Our darkness is our power, and our power supports the immortal, immaculate Voldemort. We are a group of dark witches and wizards who believe undoubtedly in the magic of tradition, and therefore uphold the ideals of blood purity and magical supremacy.

Alongside our leader, He-Who-Must-Be-Named, Lord Voldemort, we seek to establish a new order, and we see a future with a new hierarchy. Pure-blood wizards, with both sides of magical ancestry must dominate. Our traditions, sorcery, and intellectual originality is fading away due to the co-mingling with Muggles, and therefore it is crucial that we upkeep our sacred purity.

We are bonded by our Dark Mark, and we will do whatever it takes to carry out Voldemort's goals. Dumbledore has just fallen, thanks to our very own Severus Snape. The magnitude of this significant event has set the stage for the Death Eaters to be in complete control. The number of goals and steps within our plan is overwhelming, but with a constructive and high-powered meeting of the minds, we believe in ourselves.

First of all, we have hopes of shaping the young minds of the Hogwarts School of Witchcraft and Wizardry in the name of dark magic. We aim to maintain an influential role in The Ministry of Magic so we are able to propose our ideologies on a legal scale. We wish to terminate any resistance to our Lord Voldemort, especially the Order of the Phoenix, our sworn enemy.

It is vital that we ensure that Voldemort remains immortal, which means protecting his Horcruxes. Lastly, as loyal followers of Voldemort, it is critical that we help him hunt down his targets, one of which I am sure you are well-informed...

## History of Topic

The Ministry of Magic, established in 1707 subsequent to the dissolution of the Wizard's Council, stands as the authoritative body governing the magical world. This democratic institution, albeit occasionally deemed unorganized, commands universal

recognition among citizens of the Wizarding World, even from factions such as the Death Eaters who harbor contempt for its structures. Remarkably, the Ministry actively collaborates with the Muggle populace to ensure the protection and concealment of the magical realm, demonstrating a commitment to inter-world cooperation.

Regrettably, the current state of affairs reveals a disconcerting development—the infiltration and gradual subjugation of the Ministry by Death Eaters utilizing the Imperius Curse. This insidious curse has enabled these malevolent forces to ascend to political prominence within the wizarding community, thereby posing a formidable threat to the established order.

The genesis of our narrative predates the advent of Harry Potter, unfolding during a dark epoch known as the First Wizarding War. Lord Voldemort, an exceptionally potent wizard, emerged as a public figure, orchestrating acts of extreme terrorism against wizards, witches, and even non-magical beings (muggles). His overarching objective was the dismantling of the Ministry of Magic, with aspirations to establish himself as the supreme leader. His envisioned cabinet consisted exclusively of pure-blood witches and wizards, while Muggle-borns faced either massacre or subjugation in bondage. The malevolent adherents to his cause, known as Death Eaters, bore a distinctive mark—an indelible snake and skull tattoo on their arms, facilitating communication within their clandestine ranks.

In response to the escalating threat, Albus Dumbledore, venerable Headmaster of the premier wizarding institution in England, took decisive action. The Order of the Phoenix, an organization committed to resisting the encroaching darkness, was founded under his leadership.

Despite valiant efforts exerted by the Order, the Death Eaters surged in power, rendering control elusive. It became unequivocally apparent that the singular wizard capable of confronting Voldemort was Dumbledore himself. In the crucible of this conflict, two recent graduates of Hogwarts, James Potter and Lily Evans, enlisted in the ranks of the Order of the Phoenix.

A pivotal prophecy, foretold to Voldemort, outlined the inexorable downfall that awaited him:

"The one with the power to vanquish the Dark Lord approaches... born to those who have thrice defied him, born as the seventh month dies... and the Dark Lord will mark

him as his equal, but he will have power the Dark Lord knows not... and either must die at the hand of the other for neither can live while the other survives..."

— The prophecy of Voldemort's fall

This prophecy spoke directly to the fate of Lily and James's offspring, Harry Potter. The tragic events unfolded as Voldemort, in a bid to eliminate the perceived threat, attacked the Potter residence, resulting in the deaths of Lily and James. Remarkably, the malevolent Killing Curse, intended for Harry, rebounded upon its caster, eradicating Voldemort's physical form and concluding the First Wizarding War.

In the aftermath, a unique telepathic bond manifested between Voldemort and Harry, facilitated by the scar on the latter's forehead—a consequence of Voldemort inadvertently making Harry his final Horcrux. This connection would shape the trajectory of subsequent events, setting the stage for the unfolding saga of the wizarding world.

## **The Boy Who Lived**

Harry Potter, henceforth renowned as the Boy Who Lived, found himself orphaned and burdened with the singular responsibility of safeguarding the entirety of the Wizarding World. Following the tragic demise of his parents, James and Lily, Professor Albus Dumbledore, the venerable headmaster of Hogwarts School of Witchcraft and Wizardry, brought young Harry to the care of his Muggle relatives.

Regrettably, this familial arrangement proved to be one of neglect and isolation, as Harry was reared in an environment wholly oblivious to the existence of witches and wizards. Despite the circumstances surrounding his upbringing, destiny had inscribed a profound role for him—one that would eventually lead him to be the harbinger of peace and prosperity for the magical realm.

In due course, a letter arrived with the insignia of Hogwarts, a preeminent magical boarding school. This letter would serve as the conduit through which Harry would be initiated into the intricacies of the wizarding world and, more significantly, commence his education in the art and science of magic. Little did he anticipate the pivotal role he would play in the unfolding events that awaited him within the hallowed halls of Hogwarts School of Witchcraft and Wizardry.

## **The Resurgence of Voldemort**

Several years later, in Harry Potter's fifth academic year at Hogwarts, the resurgence of Voldemort marked a pivotal turning point encapsulated by the events surrounding the Triwizard Tournament, as chronicled in "The Goblet of Fire." During this tumultuous period, Barty Crouch Jr., a distinguished Death Eater, executed an elaborate subterfuge by assuming the guise of Professor Moody. His primary objective was to establish proximity to Harry Potter and infiltrate the esteemed grounds of Hogwarts, following the directives of the Dark Lord, Voldemort.

The ominous revival of the Death Eaters and their malevolent leader became evident prior to the Triwizard Tournament, notably during the Quidditch World Cup. The manifestation of the Dark Mark, Voldemort's foreboding insignia, signaled the resurgence of dark forces and set the stage for subsequent machinations. Barty Crouch Jr. further accentuated this resurgence by conjuring the Dark Mark, a symbol synonymous with Voldemort's ominous presence.

The climactic challenge of the Triwizard Tournament unfolded with four contenders vying to be the first to grasp the Triwizard Cup, unbeknownst to them that it concealed a portkey—a magical object imbued with the portus spell, enabling instantaneous transportation to another location. In an attempt to manipulate the outcome, Barty Crouch Jr. sought to engineer circumstances favoring Harry Potter's contact with the portkey. However, an unforeseen turn of events occurred as Harry and Cedric tied in the race, resulting in their joint transportation to the foreboding Little Hangleton graveyard.

Within the confines of the graveyard, Peter Pettigrew dutifully executed Voldemort's directives, restraining Harry and compelling him to assist in the resurrection of the Dark Lord into a fully corporeal form. Tragically, Cedric fell victim to the Killing Curse at the hands of Pettigrew. The ensuing duel between Harry and Voldemort unfolded amidst the shadows, and, against formidable odds, Harry narrowly escaped with his life, carrying the lifeless form of Cedric Diggory.

## **The Rise and Fall of Dumbledore**

In the period surrounding Albus Dumbledore's demise, tensions reached a climax

within the wizarding community. The resurgence of Lord Voldemort cast an ominous shadow over Hogwarts and its inhabitants, exacerbating the already strained relations between Dumbledore's faction and the Ministry of Magic, which refused to acknowledge Voldemort's return.

Against this backdrop, the Death Eaters, plotting to destabilize the wizarding society, encountered passive resistance from the Ministry, thereby heightening the precarious equilibrium of power. Recognizing the gravity of the situation, Dumbledore undertook an expedition to locate and eradicate these malevolent forces.

Tragically, Dumbledore's demise unfolded during a mission to uncover one of Voldemort's Horcruxes. In the ominous depths of a mysterious cave, Dumbledore and Harry encountered a potion that inflicted considerable weakness upon the venerable wizard. Although they secured what was believed to be Salazar Slytherin's locket, subsequent revelations revealed that it was counterfeit. Back at Hogwarts, the Order of the Phoenix maintained vigilance over the corridors and grounds, unaware of the imminent threat that loomed within.

Draco Malfoy secretly journeyed to the Room of Requirement and enabled Death Eaters to infiltrate the school, setting the stage for the climactic events in the Battle of the Astronomy Tower. As Dumbledore and Harry approached Hogwarts, the ominous Dark Mark materialized over the castle, prompting their swift ascent to the Astronomy Tower on broomsticks. Dumbledore, recognizing the urgent need for aid, instructed Harry to summon Severus Snape, thereby precipitating a confrontation with Draco Malfoy.

The culmination of these events unfolded in the tragic confrontation on the Astronomy Tower. The cumulative toll of the horrors within the cave and Dumbledore's relentless pursuit of Horcruxes had visibly weakened him. In adherence to Dumbledore's imploring, Snape cast a lethal spell, which made Dumbledore fall from the tower.

The revelation of Dumbledore's death marked a profound turning point in the wizarding world. Confronted not only by Death Eaters but also the enigmatic threat posed by Draco Malfoy, who had unwittingly aligned himself with the forces of darkness, Dumbledore's efforts to dissuade Malfoy from committing murder were abruptly interrupted by Snape's apparent betrayal. A power struggle ensued within the confines

of the tower, leaving the wizarding community profoundly affected by the passing of their venerable leader. Hogwarts found itself shrouded in grief, prompting the Order of the Phoenix to assume a leadership role and navigate the uncertain path that lay ahead.

## **Dumbledore's Army**

Dumbledore's army, or the D.A., was a secret organization initiated by Hermione Granger and Ronald Weasley, and led by Harry Potter. This army focused on teaching the students at Hogwarts to defend themselves against the dark arts. The D.A. was the students' way of fighting against the Dark Lord. The initial D.A. consisted of 28 members and was disbanded once Professor Snape became the Professor in charge of Defense Against the Dark Arts. The organization informally joined again at the Battle of the Astronomy Tower.

## **Current Situation**

In the pursuit of one of Voldemort's Horcruxes, Harry Potter, accompanied by Headmaster Albus Dumbledore, embarked on a perilous mission into a cave. This undertaking led to Dumbledore's self-weakening with a potion, necessitating a narrow escape from a group of Inferi—reanimated corpses enchanted to fulfill dark sorcery. The duo retrieved a locket from the lake within the cave before Apparating, a form of teleportation, to Hogsmeade.

As they advanced towards Hogwarts, Madam Rosmerta apprised Dumbledore of the casting of the Dark Mark, an ominous symbol associated with Voldemort and the Death Eaters, over the castle. Utilizing brooms provided by Madam Rosmerta, Harry and Dumbledore swiftly ascended to the Astronomy Tower.

Upon reaching the tower's peak, Dumbledore directed Harry to locate Snape. In the midst of their departure, a disturbance ahead prompted Dumbledore to immobilize Harry, shielding him from impending danger. In a swift turn of events, Draco Malfoy, with an Expelliarmus spell, disarmed Dumbledore. Dumbledore, aware of Malfoy's mission to kill him, attempted to persuade the young wizard to seek refuge with the Order of the Phoenix in exchange for his family's safety. Meanwhile, Death Eaters,

including Alecto Carrow, Amycus Carrow, Thorfinn Rowle, and werewolf Fenrir Greyback, gathered on the Astronomy Tower.

Despite the Death Eaters' initial pride in Draco's disarmament of Dumbledore, skepticism arose as to why Dumbledore remained alive. Thorfinn Rowle attempted an unsuccessful attack on Dumbledore, only to be repelled. Ultimately, Severus Snape ascended to the tower, displacing Draco, and cast the Killing Spell at Dumbledore, resulting in the headmaster's tragic demise as his lifeless form plummeted from the tower.

In the aftermath of Dumbledore's death, Lord Voldemort convened a meeting of his most loyal followers to outline forthcoming plans for the Death Eaters. Concurrently, Dumbledore's Army commenced efforts to rally its members, mobilizing against the rising threat. The impending clash between these opposing forces underscores the escalating conflict within the wizarding world and the need for decisive action to avert potential failure.

## **Guiding Questions**

- How can you utilize your magical strengths to benefit Voldemort and his ideological agenda?
- In what ways can your weaknesses be taken advantage of? How can you manage those weaknesses?
- How can you use your resources to influence the wizarding world?
- What is your true perspective on Voldemort? Would you betray him, and if so, at what cost?
- How can you benefit personally from the successes of the Death Eater movement and can you maximize those benefits in any way? How?
- Who do you think is the double agent? How can you determine and defeat them?
- How do you benefit from communicating with the other half of the JCC?

## **Possible Solutions**

In the aftermath of Dumbledore's demise, this presents an opportunity for Death Eaters to strategize and ensure the continuation of our cause in a changing wizarding

world. Delegates may advocate for reinforcing our network within the wizarding community, fortifying our alliances with other magical groups, and amplifying our influence within magical communities worldwide. Proposals might revolve around recruitment drives, enhancing Dark Arts education in schools, and establishing secure channels for communication and resource-sharing among our loyal followers. The discussion could emphasize the necessity of maintaining our principles of pure-blood supremacy and purging any double agents within our ranks. Suggestions might include infiltrating key positions in magical institutions, manipulating laws to our advantage, and intensifying efforts to locate and liberate incarcerated followers of the Dark Lord. Additionally, delegates could propose leveraging fear and intimidation tactics to quell opposition and dissuade resistance against our ideology.

## Important Information

**Horcruxes:** A Horcrux is an object which is hidden by a dark witch or wizard including part of their soul in order to become immortal. As long as the object stays in good condition, hidden away, the witch or wizard who hid the object will continue to live, although their body may be mortal. The creation of a Horcrux has but one cost, which is that to create it, one must complete the supremest act of evil: murder. In order to protect one's immortality, Horcruxes are protected with immense care through the use of counter-charms and curses. These objects with immense durability are also used to ensure one's immortality. To kill the person who has made a Horcrux, one must destroy the Horcrux.

**Galleons:** Galleons are the currency used in the wizarding world. There are other coins

used in the wizarding world but for the sake of this conference we will only be dealing in Galleons.

**Duels:** Both parties must agree to partake in a duel. This action can take place not only within your room but also with those on the other side. Be careful when proposing a duel because only one witch or wizard will make it out alive! Make sure to be aware of your characters portfolio powers, you don't want to battle a wizard much stronger than you! (If you die in a duel, you will respawn as another character and the crisis will continue.)

**Double agent:** It has been confirmed that in our midst there is a secret member of the Order of the Phoenix. The identity of this double agent will be kept hidden from all delegates until the day of the conference. Don't worry not all is lost, the death eaters also have a spy on the inside that will be causing havoc to this so-called Dumbledore's Army. Make sure to be on your toes to seek out this traitor.

**Animagi:** An animagus, or an animagi (plural), can transform into an animal form at will. An animagus only has one animal form. Being able to transform was a learned skill, and was not the same as other abilities to change forms, like werewolves and a metamorphmagus. Some familiar animagi include: Peter Pettigrew, James Potter, Sirius Black, and Minerva McGonagall. Animagi were expected to disclose their Animagus configuration to the Ministry of Magic. The ministry asked this in the hope that it would avert exploitation of their artistry.

Animagi possess copious advantages, which can be used for favorable and unfavorable behaviors. For instance, Sirius Black, utilized his Animagus form, of a black dog, and became the first person to ever escape Azkaban, the prison. Furthermore, after ratting out the location of James and Lily Potter, to frame Sirius Black, Peter Pettigrew severed his finger, staged a scene to convince people he was murdered, and assumed the identity of Scabbers, Ron Weasley's beloved pet rat.

**Dementors:** Dementors are creatures, who have the ability to consume the souls of people with a "Dementor's Kiss," and bring out feelings of despair when you are around them. Dementors' main job for the Ministry of Magic is to guard Azkaban to prevent

prisoners from escaping. During Harry's third year at Hogwarts, Sirius Black (who was framed for a crime, which was not known at the time), escaped Azkaban, which led Dementors to monitor the Wizarding World, including Hogwarts. Harry's interactions with the Dementors on the train show how Harry is extremely susceptible to the forces of the Dementors. Harry, having lots of true pain in his life, is extremely affected by the Dementors, as they bring out the pain of people, and bring out Harry's traumatizing past. While the Dementors have mainly been used to protect the people of the Wizarding World, their extreme power, and negative effects on people can be harmful, especially if in the wrong hands.

**Order of the Phoenix Manifesto:** Albus Dumbledore founded the Order of the Phoenix to protect wizards, witches, and muggles against Voldemort and the Death Eaters. Following the murder of Dumbledore, the Order of the Phoenix prioritized public safety by defeating Voldemort and the Death Eaters and putting an end to corruption at the Ministry of Magic and Hogwarts.

## Character List

**Alecto Carrow:** The sister of Amycus Carrow. She fought in the first wizarding war with her brother but did not stay loyal after Voldemort's disappearance. Voldemort eventually forgave Alecto and she has risen in the death eater ranks. After the fall of the ministry she took control of muggle studies at Hogwarts. She teaches that muggles are the lesser kind and the pureblood philosophy. With Snape as the headmaster she was appointed deputy headmistress and uses her power to punish students that oppose her.

**Amycus Carrow :** The brother of Alecto Carrow. He fought in the first wizarding war along with his sister but chose to not look for Voldemort after his disappearance. Voldemort eventually forgave Amycus and he rose in the death eater ranks. After the fall of the ministry, he began teaching Defense Against the Dark Arts at Hogwarts which is now just Dark Arts. He was appointed headmaster and uses his power to punish students that oppose him.

**Antonin Dolohov:** Considered a very powerful wizard that is high in the death eater

ranks. He fought in the first wizarding war in which he captured and tortured muggles and anyone who opposed the dark lord's power. This continued until he was caught after murdering Fabian and Gideon Prewett. He was convicted of these crimes, and sentenced to life imprisonment in Azkaban. After Voldemort's return during the mass breakout of 1996. He and Thorfinn Rowle attacked Harry Potter, Hermione Granger, and Ron Weasley at Tottenham Court Road and Antonin fought in the battle of Hogwarts.

**Bellatrix Lestrange:** A British Pure-Blood born to Cyngus and Druella Black and elder sister to Andromeda Tonks and Narcissa Malfoy. Bellatrix was educated at Hogwarts as a Slytherin and is a member of the House of Black. She is also considered Voldemort's most devoted servant/death eater. Bellatrix, Rodolphus, Rabastan, and Barty Crouch Jr. were sentenced to a lifetime in prison at Azkaban for torturing the Aurors Frank and Alice Longbottom. That being said, Voldemort's return to full strength prompted Bellatrix, Rodolphus, and Rabastan to escape. Bellatrix's main goal is to kill any and all family members of those in the order of the phoenix. She has already killed Dobby, her own cousin Sirius Black, niece Nymphadora Tonks, and countless others.

**Draco Malfoy:** A Pure-Blood born to Lucius and Narcissa Malfoy. Due to his parents, he was raised with strong death-eater beliefs surrounding the importance of blood purity. He attends Hogwarts as a Slytherin in the same year as Harry. After Lucius Malfoy was put into Azkaban for his involvement in the Battle of the Department of Mysteries, Draco was held responsible by Voldemort to restore honor to the family name. To test his loyalty Voldemort gave Draco the task of killing Albus Dumbledore. Draco couldn't finish this mission. Instead, Severus Snape took over the task. Draco carried out his other responsibilities nervously and without much enthusiasm.

**Fenrir Greyback:** Fenrir Greyback, active from 1945 to 1998, was a notorious werewolf bounty hunter known for his extreme brutality, especially targeting children. A prominent figure in his community, he aimed to spread lycanthropy widely, aspiring to assemble an army that could eventually dominate the wizarding world. During the Second Wizarding War, Greyback and his werewolf pack joined forces with Lord Voldemort, despite facing discrimination from him and his Death Eaters due to their werewolf status. Despite not having the Dark Mark, Greyback participated in the Battle

of the Astronomy Tower, expressing a desire to attack young Hogwarts students.

**Lucius Malfoy:** Lucius Malfoy, a pure-blood wizard born around 1954, was a high-ranking Death Eater and second-in-command to Voldemort during the First Wizarding War. After claiming he acted under the Imperius Curse, he avoided imprisonment following Voldemort's initial defeat. Despite remaining in the elite, Lucius engaged in prejudiced actions, including attempts to sabotage Arthur Weasley's career and participating in Muggle family humiliation. Upon Voldemort's return, Lucius served as a Death Eater again but faced imprisonment in Azkaban in 1996 for failing to secure a prophecy. Freed in 1997, he endured disdain and mistreatment from Voldemort due to perceived failures.

**Narcissa Malfoy:** Narcissa "Cissy" Malfoy (born in 1955) was a British witch from the esteemed House of Black. She grew up with her sisters Bellatrix Lestrange and Andromeda Tonks. She wedded Lucius Malfoy and together they had a son named Draco. While never formally a Death Eater herself, Narcissa upheld the belief in blood purity and supported her husband in aligning with Lord Voldemort during both Wizarding Wars. Her stance shifted, however, when her husband was imprisoned in Azkaban and Voldemort endangered her son's life. She would do anything to protect Draco including lying to the Dark Lord himself.

**Peter Pettigrew (Wormwood):** Peter Pettigrew, O.M. (First Class), born around 1959/1960, attended Hogwarts and was sorted into Gryffindor after a Hatstall. A member of the Marauders, he was close friends with Sirius Black, James Potter, and Remus Lupin, and they created the Marauder's Map. In the First Wizarding War, Pettigrew was initially part of the Order of the Phoenix but later became a spy for Voldemort. He betrayed the Potters, leading to their downfall. After faking his death, he lived as the Weasley family's pet rat, Scabbers, for twelve years. Exposed in 1994, he returned to Voldemort's service in Albania, playing a crucial role in the Dark Lord's rebirth.

**Pius Thicknesse:** Pius Thicknesse, a British wizard, held a prominent position within the Ministry of Magic in the mid to late 1990s. Amid the Second Wizarding War, he rose

to become the Head of the Department of Magical Law Enforcement and, later, he assumed the role of Minister for Magic during Lord Voldemort's rule. It's important to note that he was under the Imperius Curse, essentially serving as Voldemort's puppet. Following the murder of Rufus Scrimgeour by Voldemort, Thicknesse succeeded him as Minister for Magic. He remained under the influence of the curse throughout, participating in the final conflict of the war while fighting alongside the Death Eaters.

**Scabior:** Scabior, who died on May 2, 1998, was a wizard and a member of the Snatchers in Fenrir Greyback's gang at the peak of the Second Wizarding War. He previously served time in Azkaban for his affiliations with the Death Eaters during the first wizarding war. His role was to collect anyone that opposed Lord Voldemort or any wizard not of pure blood and bring them to Lord Voldemort for Gold. When looking for prey in the forest Scabior finds Harry, Ron and Hermine successfully capturing the trio, and bringing them to Malfoy Manor.

**Selwyn:** As a Death Eater, Selwyn displayed cruelty by assaulting Xenophilius Lovegood and threatening harm to Luna. He was suspicious, believing Xenophilius intended to trap and kill him and Travers. Proficient in dark magic, Selwyn excelled in casting dark charms. Skilled in martial magic, he participated in the Battle of the Seven Potters, chasing down Hagrid and Harry on a broomstick, showcasing his competence in dueling. Additionally, he proved to be an accomplished flier during the battle, successfully evading attacks and keeping up with skilled opponents.

**Thorfinn Rowle:** Thorfinn Rowle, a brutal Death Eater in the Second Wizarding War, played a dark role at the Battle of the Astronomy Tower, accidentally killing a comrade and torturing Harry Potter. Despite his recklessness, he displayed dueling prowess, nearly defeating Remus Lupin. Skilled in the Dark Arts, Rowle adeptly cast Unforgivable Curses, including the Killing Curse. His proficiency extended to charms, setting Hagrid's hut ablaze, and employing the Silencing Charm. Rowle's versatility included nonverbal magic and Apparition, enabling his escape after the Battle of the Astronomy Tower.

**Walden Macnair:** Walden Macnair, a Dark wizard, was among Lord Voldemort's original Death Eaters during the First Wizarding War. Despite not actively seeking

Voldemort after his initial defeat, his actions were pardoned upon Voldemort's return. Evading imprisonment in Azkaban, Macnair secured a role as an Executioner in the Ministry of Magic. In 1995, he was involved in his master's resurgence and engaged in numerous battles throughout the Second Wizarding War, including the conflict at the Department of Mysteries. As a consequence, he was later incarcerated in Azkaban but soon after escaped to continue to help the death eater cause.

**Corban Yaxley:** Corban Yaxley, a Death Eater, fought in both the First and Second Wizarding Wars. He rose to Head of the Department of Magical Law Enforcement under Voldemort's control. Known for his ruthlessness and Pure-blood supremacy, Yaxley played a role in the oppressive Muggle-Born Registration Commission, working with Umbridge to falsely imprison Muggle-borns. His combative role included the Battle of the Astronomy Tower, and he was subdued by George Weasley and Lee Jordan in the Battle of Hogwarts.
